Contents of Volume 653

Special Issue: 30 Years of the Cross-Coupling Reaction

Preface 1

Historical Notes

A reminiscence and a future prospect of transition metal-catalyzed cross-coupling processes
A. Yamamoto 5

Homo coupling, disproportionation and cross coupling of alkyl groups. Role of the transition metal catalyst
J.K. Kochi 11

Catalytically assisted carbon–carbon coupling reaction: a French–Japanese 'cuisine'
R.J.P. Corriu 20

Discovery of the cross-coupling reaction between Grignard reagents and C(sp^2) halides catalyzed by nickel–phosphine complexes
K. Tamao 23

Palladium-catalyzed cross-coupling reaction of organic halides with Grignard reagents, organolithium compounds and heteroatom nucleophiles
S.-I. Murahashi 27

A genealogy of Pd-catalyzed cross-coupling
E.-i. Negishi 34

Catalytic asymmetric cross-coupling
T. Hayashi 41

Development of Pd–Cu catalyzed cross-coupling of terminal acetylenes with sp^2-carbon halides
K. Sonogashira 46

A historical note of the Stille reaction
M. Kosugi, K. Fugami 50

Cross-coupling reaction of organoboron compounds via base-assisted transmetalation to palladium(II) complexes
N. Miyaura 54

How I came across the silicon-based cross-coupling reaction
T. Hiyama 58

International Symposium on '30 years of the cross-coupling reaction'—summarizing remarks
M. Kumada 62

Invited Papers

Highly active, air-stable palladium catalysts for Kumada–Tamao–Corriu cross-coupling reaction of inactivated aryl chlorides with aryl Grignard reagents
G.Y. Li 63

Catalytic cross-coupling reactions mediated by palladium/nucleophilic carbene systems
A.C. Hillier, G.A. Grasa, M.S. Viciu, H.M. Lee, C. Yang, S.P. Nolan 69

Cross-coupling reactions via organoboranes
A. Suzuki 83

Scope and limitation of the nickel-catalyzed coupling reaction between lithium borates and mesylates
Y. Kobayashi, A.D. William, R. Mizojiri 91

Efficient and stereoselective cross-coupling with highly substituted alkenylsilanols
S.E. Denmark, W. Pan 98

Pyridylsilyl group-driven cross-coupling reactions
K. Itami, K. Mitsudo, T. Nokami, T. Kamei, T. Koike, J.-i. Yoshida 105

Synthesis of functionalized alkenes by transition metal-catalyzed carbostannylations of alkynes and dienes followed by cross-coupling reactions
E. Shirakawa, T. Hiyama 114

Preparation of 2-arylated-1,4-phenylenediamines by palladium-catalyzed cross-coupling reactions
A.E. Jensen, P. Knochel 122

New cascade and multiple cross-coupling reactions for the efficient construction of complex molecules
A. de Meijere, P. von Zezschwitz, H. Nüske, B. Stulgies 129

Studies on stereoselective Sonogashira coupling of 1,1-dibromo-1-alkene
J. Uenishi, K. Matsui, H. Ohmiya 141

The directed *ortho* metalation—cross coupling symbiosis. Regioselective methodologies for biaryls and heterobiaryls. Deployment in aromatic and heteroaromatic natural product synthesis
E.J.-G. Anctil, V. Snieckus 150

Multiple arylation of carbonyl compounds via palladium catalysis
T. Satoh, M. Miura, M. Nomura 161

Transition metal mediated routes to poly(arylphosphine)s: investigation of novel phosphorus containing conjugated polymers
Z. Jin, B.L. Lucht 167

A new frontier in the metal-catalyzed cross-coupling reaction field. The palladium-promoted metal–carbon bond formation. Scope and mechanism of a new tool in organometallic synthesis
A. Ricci, C. Lo Sterzo 177

Cross-coupling reactions for preparation of π-conjugated polymers
T. Yamamoto 195

C–C Cross-coupling reactions for the combinatorial synthesis of novel organic materials
M.-S. Schiedel, C.A. Briehn, P. Bäuerle 200

Recent advances on the synthetic applications of the dithioacetal functionality
T.-Y. Luh 209

Exploiting the versatility of organometallic cross-coupling reactions for entry into extended aromatic systems
J.D. Tovar, T.M. Swager 215

Cross-coupling reactions in the chemistry of silole-containing π-conjugated oligomers and polymers
S. Yamaguchi, K. Tamao 223

A convergent total synthesis of pumiliotoxins A and B via palladium-catalyzed cross-coupling reaction of homoallylic organozinc compounds with vinyl iodides
C. Kibayashi, S. Aoyagi 229

Palladium-catalyzed C–N and C–C cross-couplings as versatile, new avenues for modifications of purine 2′-deoxynucleosides
M.K. Lakshman 234

Palladium-catalyzed cross-coupling reaction of anilinium hypophosphite with alkenyl bromides and triflates: application to the synthesis of GABA analogs
Y.R. Dumond, J.-L. Montchamp 252

The intramolecular Stille reaction in some target natural product syntheses
G. Pattenden, D.J. Sinclair 261

Investigations into the Suzuki–Miyaura coupling aiming at multikilogram synthesis of E2040 using (*o*-cyanophenyl)boronic esters
Y. Urawa, H. Naka, M. Miyazawa, S. Souda, K. Ogura 269

Application of cross-coupling reactions in Merck
N. Yasuda 279

Some applications of the Grignard cross-coupling reaction in the industrial field
T. Banno, Y. Hayakawa, M. Umeno 288
